Question:

What are the system requirements for Act! v23?

Product Details:

Product Family: Act!

Version: v23

Answer:

Act! Premium (v23) / Act! Growth Suite (v23) - Access via Windows®

System Requirements

- 4 GB available hard disk space
- 1280 x 768 or higher resolution monitor
- Broadband Internet connection
- 2 GB system memory, 4GB for 64-bit OS
- 1.8 GHz processor
- Network Interface Card
- Microsoft Update Service must be current and running

Works With

- Microsoft® Office 2019, 2016, and 2013

- Microsoft® Exchange and Office 365 for contact and calendar synchronization
- Internet Mail SMTP/POP33

Further information around Exchange support is available in the following knowledgebase article: [Microsoft Exchange compatibility with Act! v20.1 and later](#).

Supported Operating Systems

- Windows Server 2019 (64-bit)
- Windows Server 2016 (64-bit)
- Windows Server 2012 R2 (64-bit)
- Windows 10 (32-bit and 64-bit)
- Windows 8.1 (32-bit and 64-bit)
- Windows 8.1 Pro (32-bit and 64-bit)
- Windows 8.1 Enterprise (32-bit and 64-bit)

Database Server

Act! uses SQL Server® 2014 Express or your existing installation of SQL Server 2012 or newer. Note that SQL Server 2008 R2 is no longer a supported Microsoft product, and existing installations of this version must be upgraded for continued compatibility with Act!. Further information is available in the following knowledgebase article: [Removal of support for Windows 7 Windows Server 2008 and SQL 2008 R2](#). If you would like to use an edition of SQL Server other than the one provided, please consult Microsoft documentation for specific hardware and software requirements for that edition.
